This medical light is suitable for several medical specialties like: dermatology, general medicine, gynaecology, dentistry etc. It is a multifunctional and versatile light, ideal for diagnostics, cosmetic medicine, first aid and recovery rooms. It is a reliable product that assures excellent light intensity and low consumption (12W) at the same time. It has a functional design, easy to move and its light head remains steady during its use once positioned. The light has a smooth and easy-to-clean surface to allow the best cleanliness. The innovative I-SENSE® touch panel allows you to adjust light intensity and select the desired light level according to the different needs.
